REMARKS

The applicant thanks the examiner for indicating allowance of claims 5-8 if written in independent form including all of the limitations of the base claim and any intervening claims.

Claims 2-12 and 43-52 are pending. Claims 5 and 7 have been written in independent form including all of the limitations of claim 1. Claims 2-4, 6, 8-12, and 43-52 now depend on claims 5 or 7, and are patentable for at least the same reasons as the claims on which they depend.

The rejections to the claims are moot in view of the amendments.

The applicant notes that the claims are allowable because the prior art references do not disclose or suggest, and would not have made obvious, all the limitations recited in the claims.

Canceled claims, if any, have been canceled without prejudice or disclaimer.

Any circumstance in which the applicant has addressed certain comments of the examiner does not mean that the applicant concedes other comments of the examiner. Any circumstance in which the applicant has made arguments for the patentability of some claims does not mean that there are not other good reasons for patentability of those claims and other claims. Any circumstance in which the applicant has amended or canceled a claim does not mean that the applicant concedes any of the examiner's positions with respect to that claim or other claims.

Please apply any charges or credits to deposit account 06-1050.

Respectfully submitted,

Date: 2/13/2006
